

Privacy & Responsible AI Use Checklist

Run through this checklist before submitting any AI-assisted work.

Adapted from Med Kharbach, PhD (2026) — AI Use Policy Templates for Higher Education. CC BY-NC-SA 4.0. This adaptation is prepared for FIT@HCMUS – CS423 / CSC13003 Software Testing course.

1. Before I use AI

- ☒ [x] I confirmed the AI Use Category assigned to this assignment.
- ☒ [x] I have declared which AI tool(s) I will use in my prompt log.
- ☒ [x] I have read the AI Use Agreement for this course.
- ☒ [x] I understand which artifacts **MUST NOT** be AI-generated.

2. While I am using AI

- ☒ [x] I did not enter personal data of classmates, customers, or patients.
- ☒ [x] I did not paste copyrighted reading materials wholesale into the AI.
- ☒ [x] I did not paste proprietary employer or open-source license-restricted code.
- ☒ [x] I logged each prompt + AI response into the AI Audit Report (Section 3).

HW06 note — SUT is a deliberately vulnerable demo. The System Under Test (EShop `eshop-sut`) is a course-provided demo app that intentionally contains bugs; it holds only seeded test data (`admin@eshop.com`, `test@eshop.com`) — no real personal data. My security tests (SQL Injection, UNION credential leak) were run only against my own local instance (`localhost:3000`), never against any third-party or production system. The `X-Student-Id` header carries my own student ID only. The AI-test-generator diagram required by the “Create” level (G9.5) is self-drawn by me — NOT AI-generated — per the assignment’s anti-AI-cheat constraint.

3. Before I submit my work

- ☒ [x] All AI-generated artifacts are tagged in the AI Audit Report.
- ☒ [x] All citations from AI have been verified (sources actually exist).
- ☒ [x] All AI-generated code has been executed and tested.
- ☒ [x] My 200–300-word AI Critique is included in the report.
- ☒ [x] The Mandatory Disclosure paragraph is at the end of my report.
- ☒ [x] I attached the AI Use Disclosure Form.

☒ [x] I am ready for a 5–7-min random oral defense the week after submission.

4. Final Statement

Final responsibility for the accuracy, originality, and integrity of this submission rests with me. Any undisclosed AI use is treated as academic misconduct.
